Sorry, the details you provided were invalid

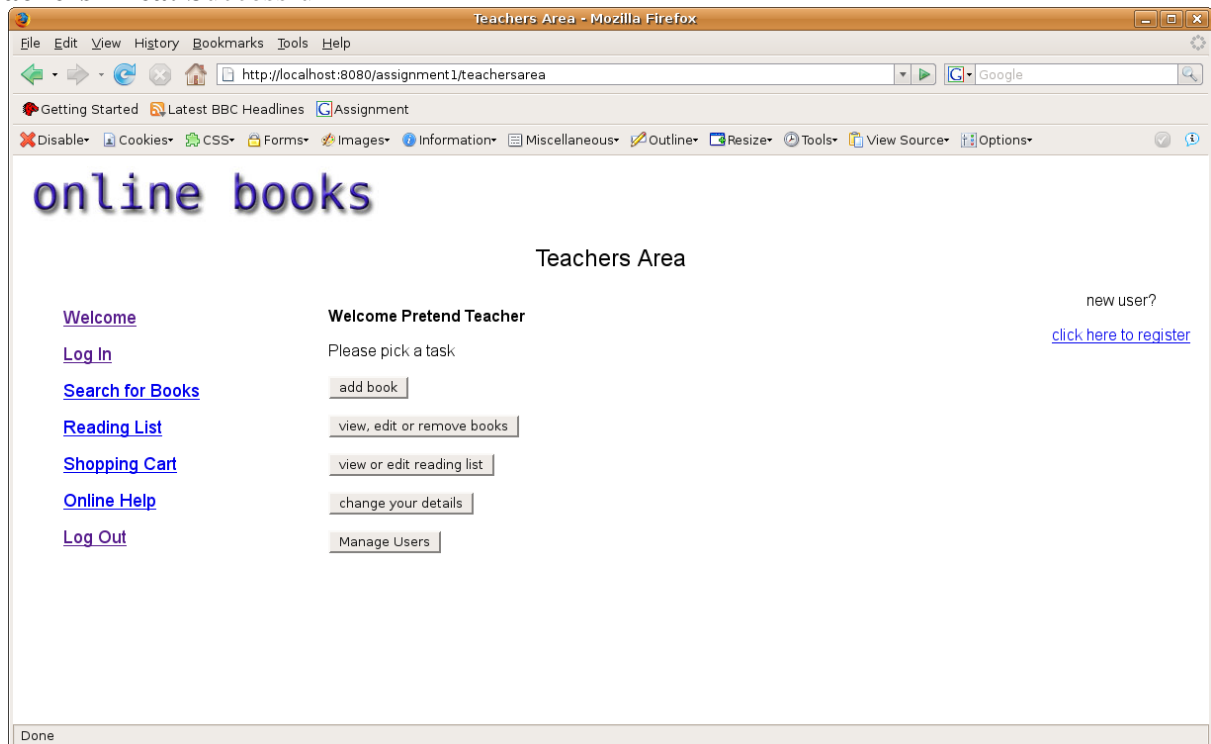

[Please click here to try again](#)

new user?  
[click here to register](#)

Done

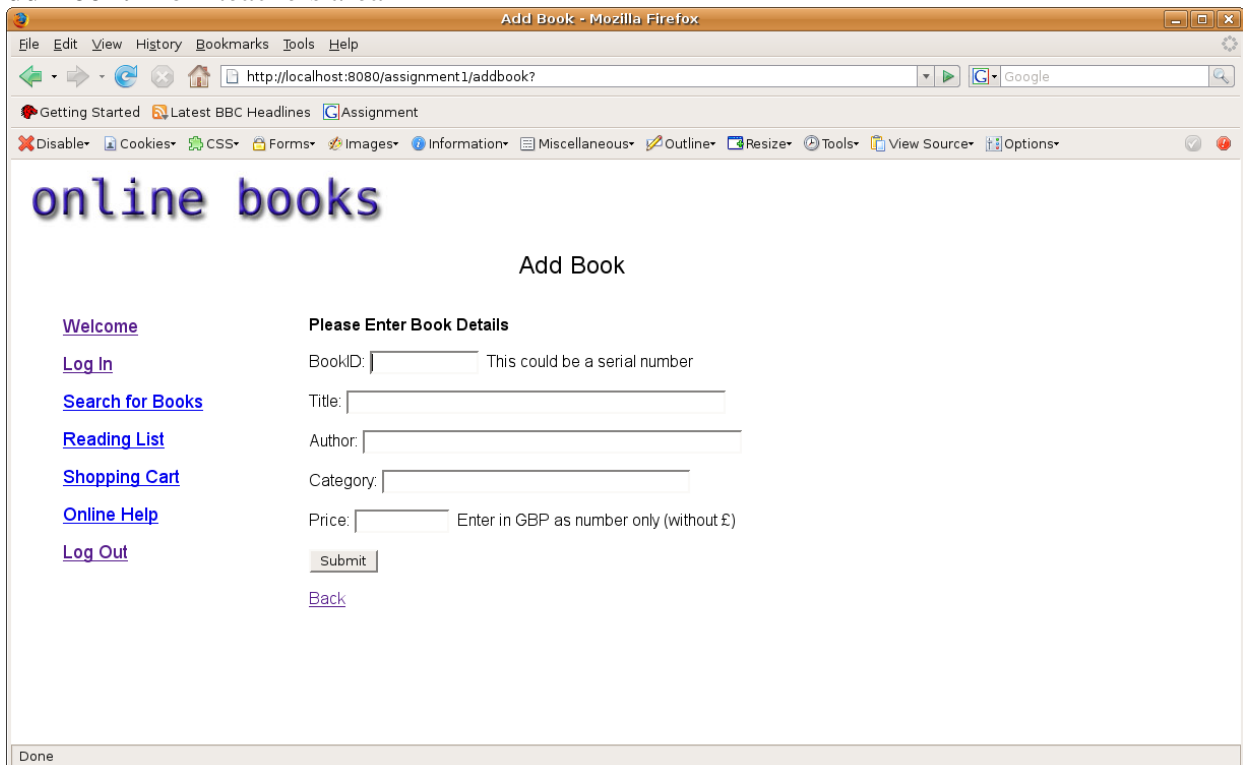

Error message appears asking the teacher to try again

## Teachers Area: Successful

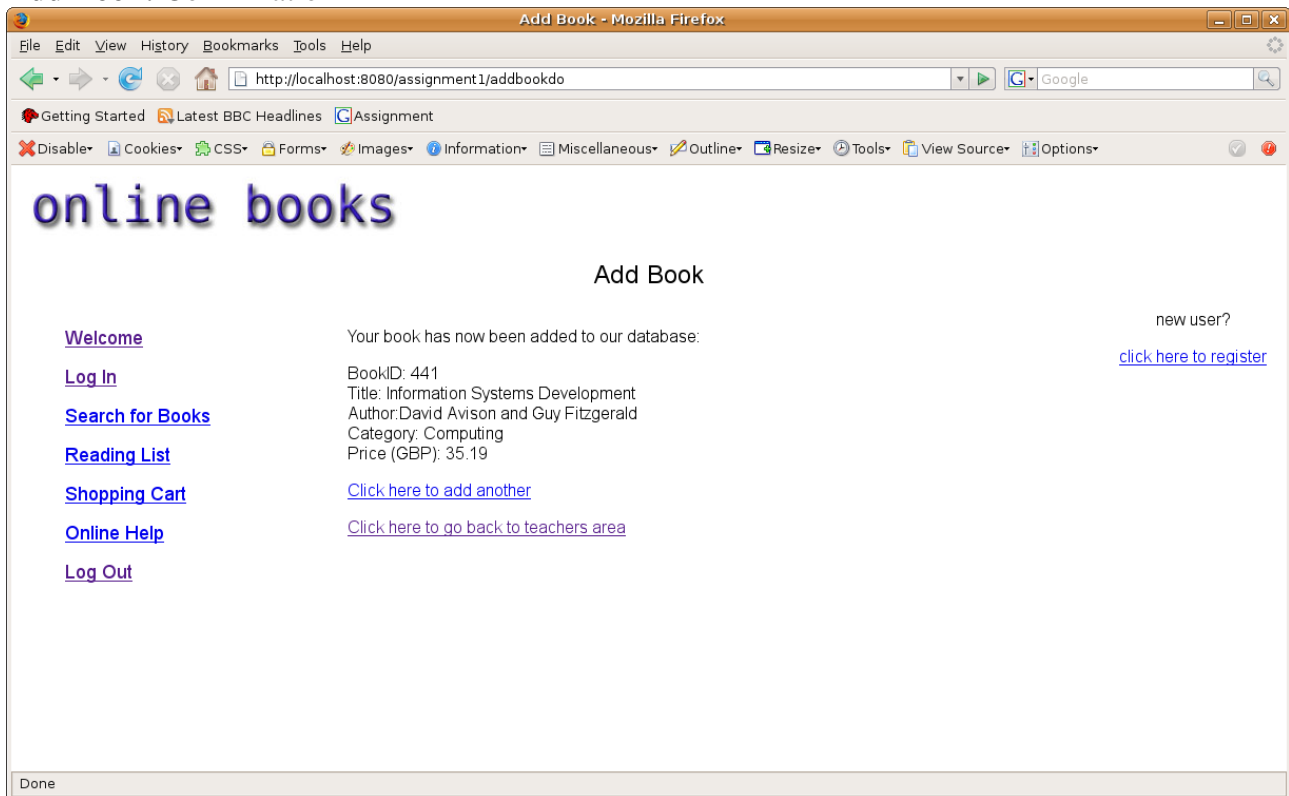

A menu appears after greeting the teacher by name and session cookies are stored, storing teacher user name, teacher password and a teacher validation cookie. The menu allows the teacher to add new books, search for books that they wish to remove, edit or add to a specific course reading list, view the reading lists which they may wish to edit, remove or add and remove courses that the specific reading lists go into, change their own details except their unique user name and manage users which includes searching users and viewing all their details including their previous orders, and removing users if they wish

## Add Book: From teachers area

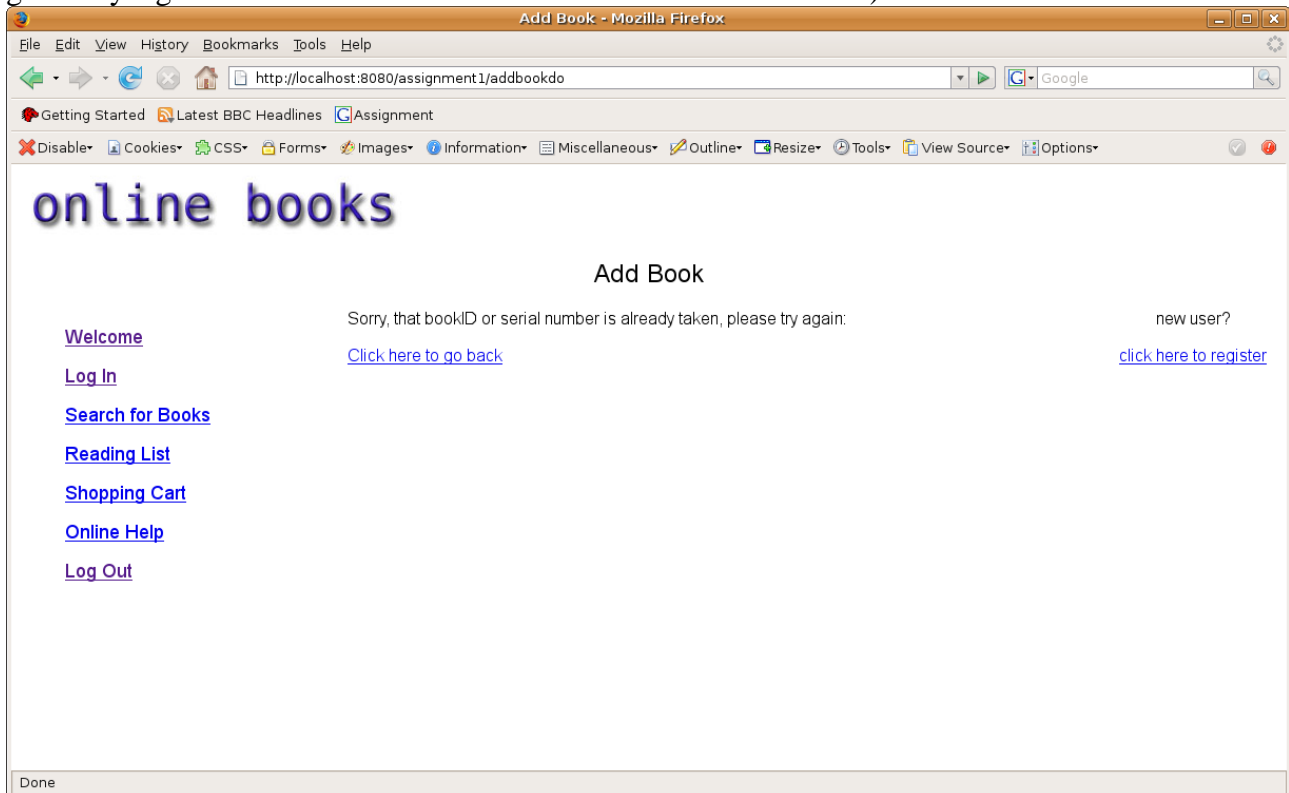

Allows teacher to enter book information to add to database

## Add Book: Confirmation

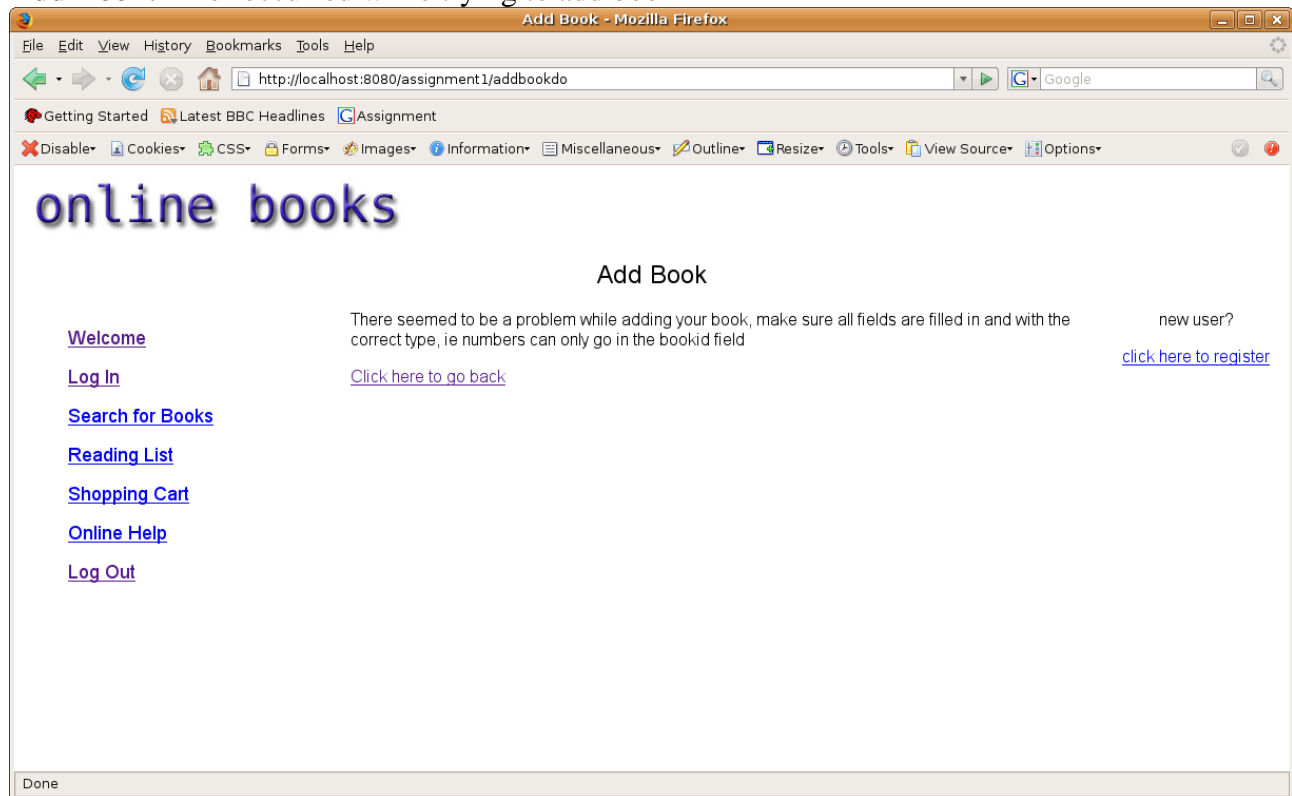

Confirmation The Book has been added to the database

**Add Book:** Confirmation that the book already exists on database (through bookid this is why it's generally a good idea for the book id to be the book's serial number)

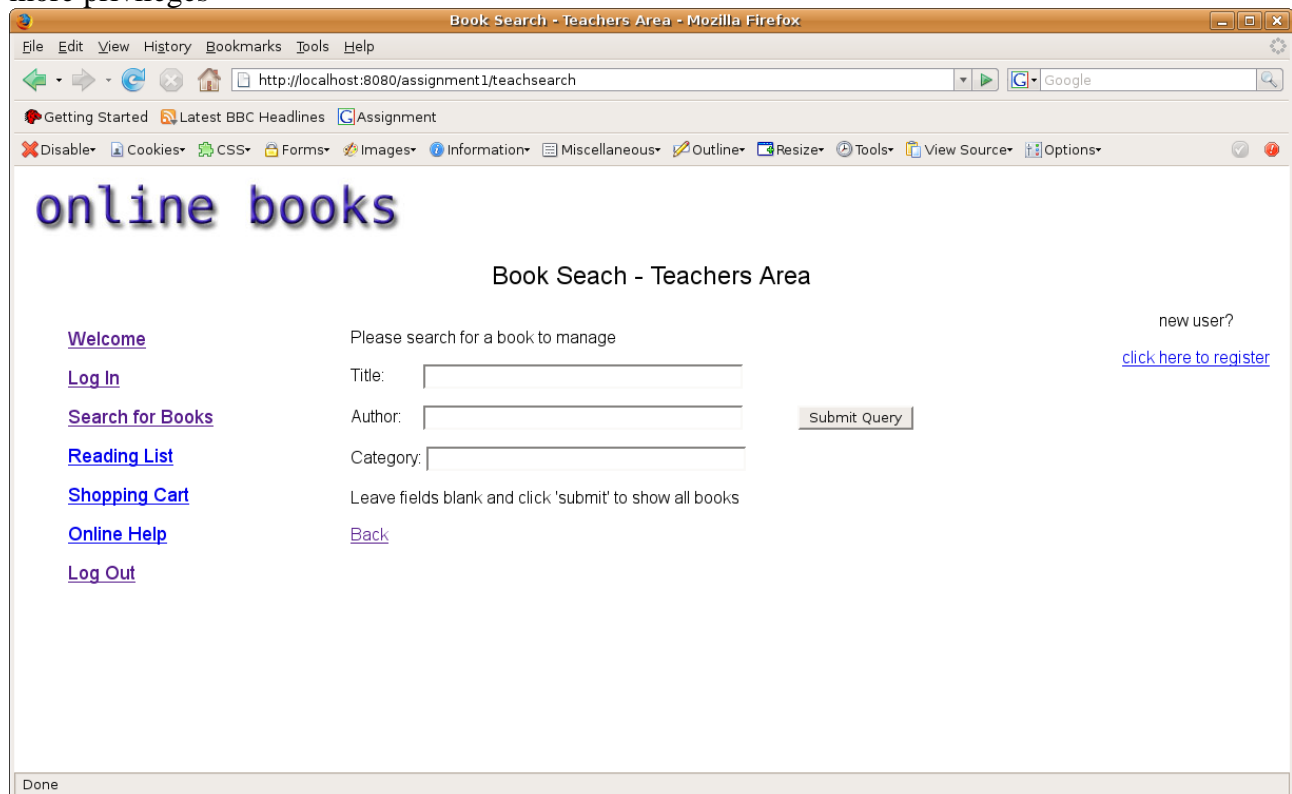

Confirmation successful

## Add Book: Error occurred while trying to add book

This error message appears if the user enters characters in the price field or any information that is in the wrong format for its field

**Teachers Book Search:** Search for book the same as a user searches for a book but teacher has more privileges

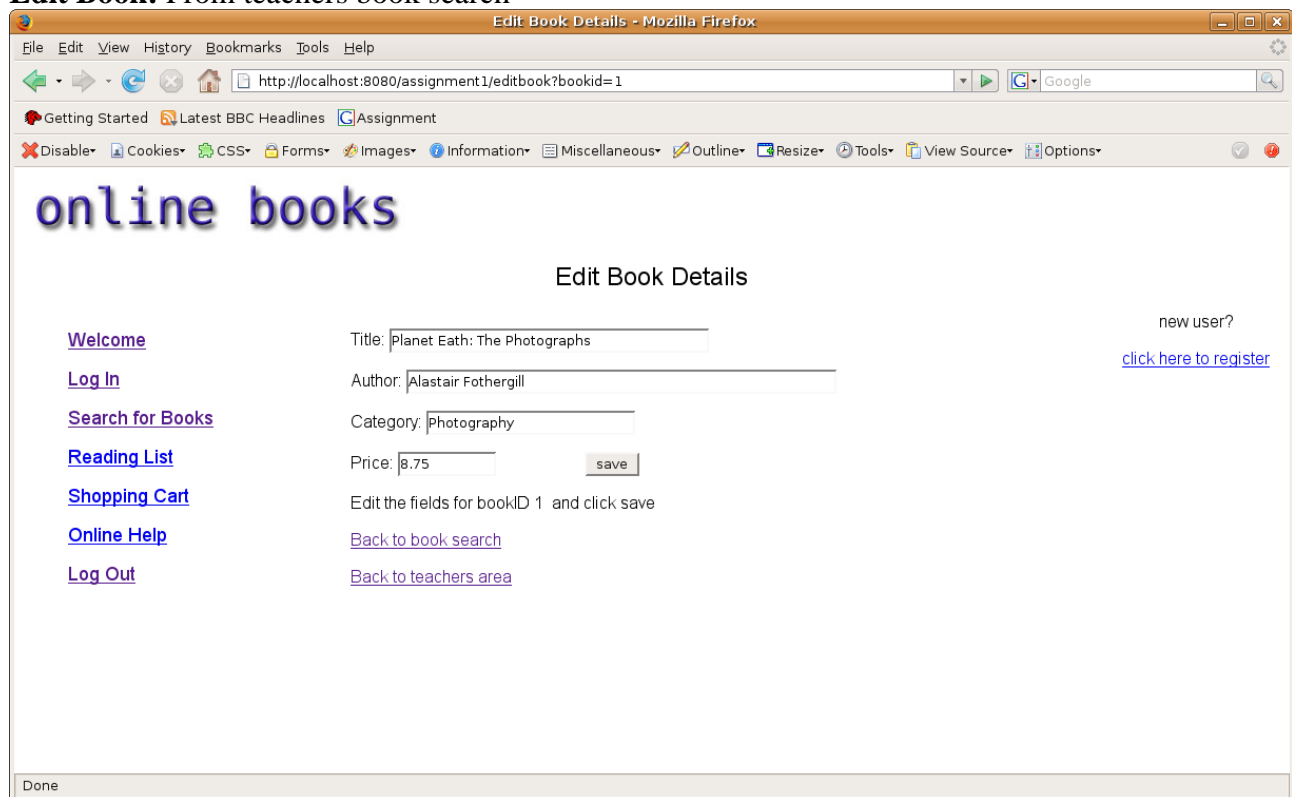

Teacher can search for books involving the very same system as user do but the results show different privileges

## Book Search: Results

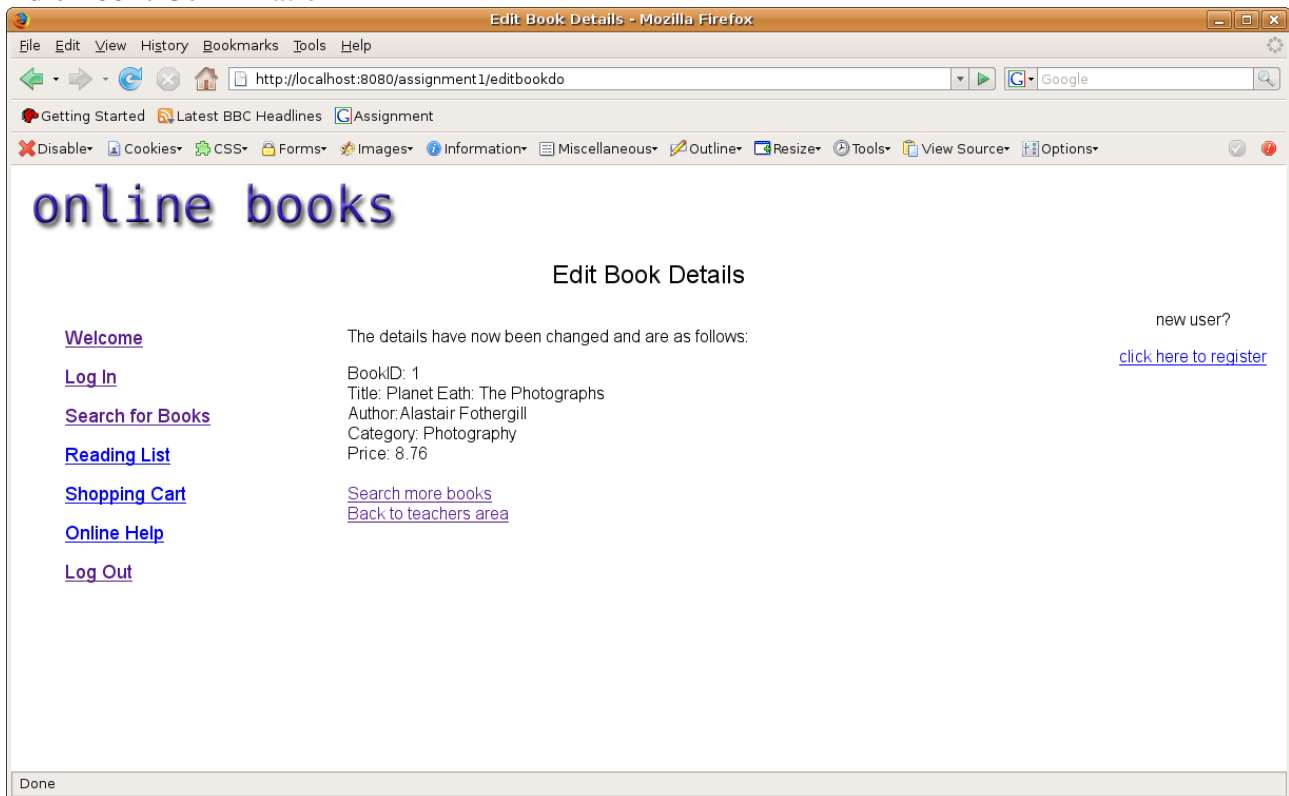

From here teachers can edit the book, add the book to a reading list or remove the book

## Edit Book: From teachers book search

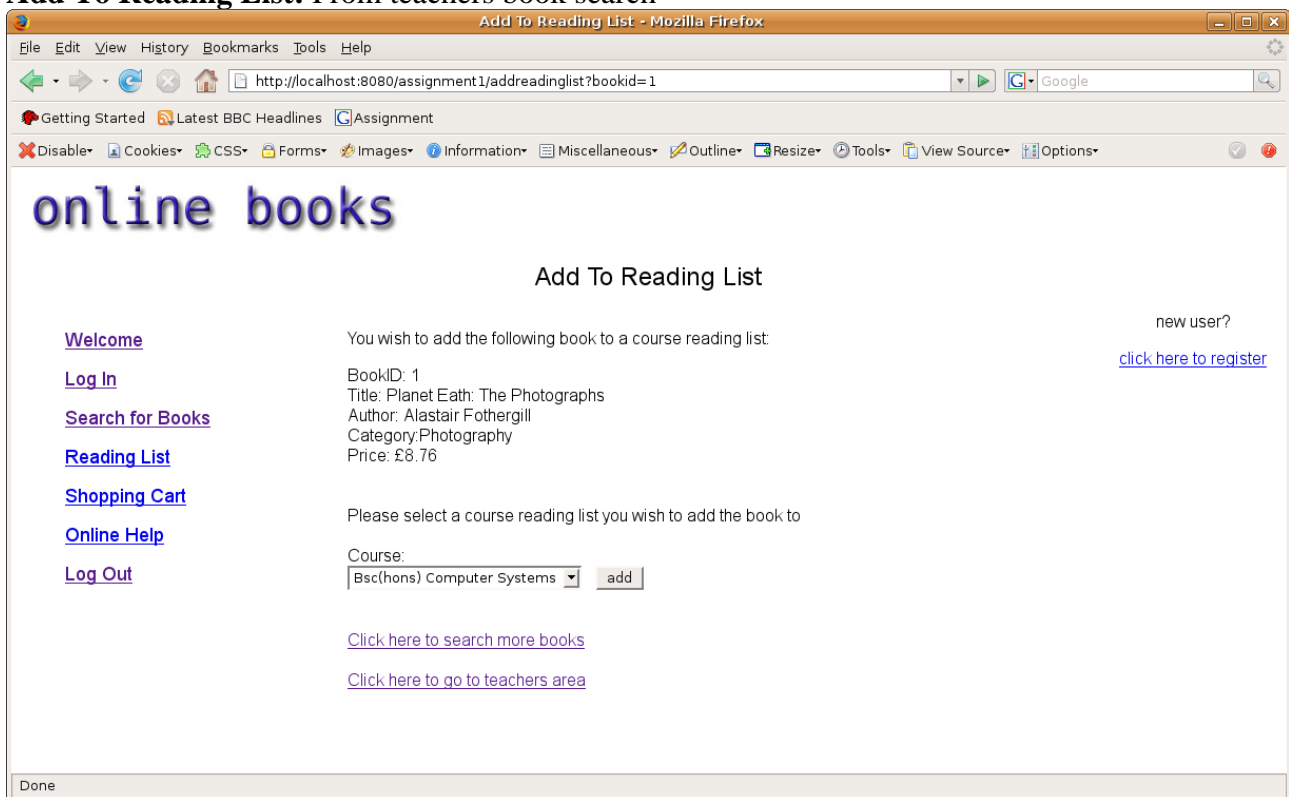

Book details are shown in editable text fields so the teacher can change the details of the book

## Edit Book: Confirmation

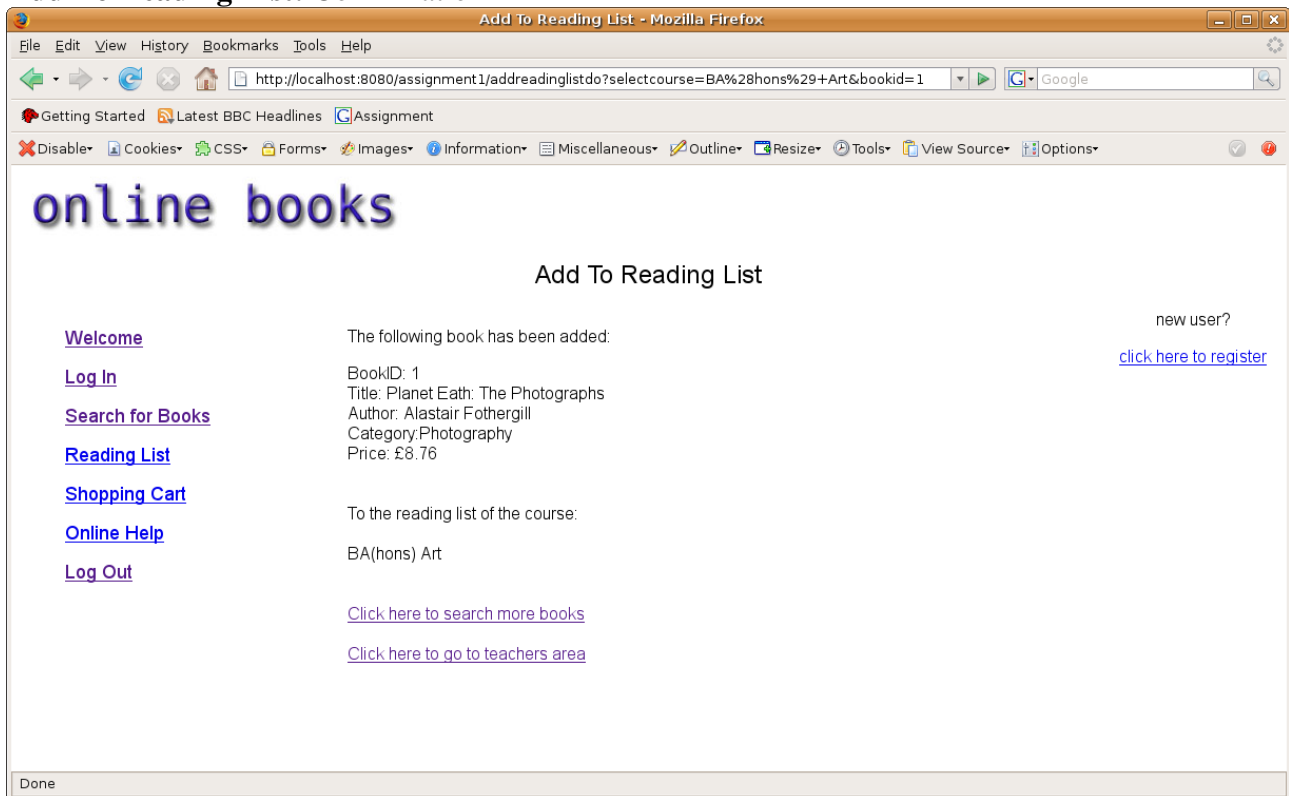

Book details have been updated

## Add To Reading List: From teachers book search

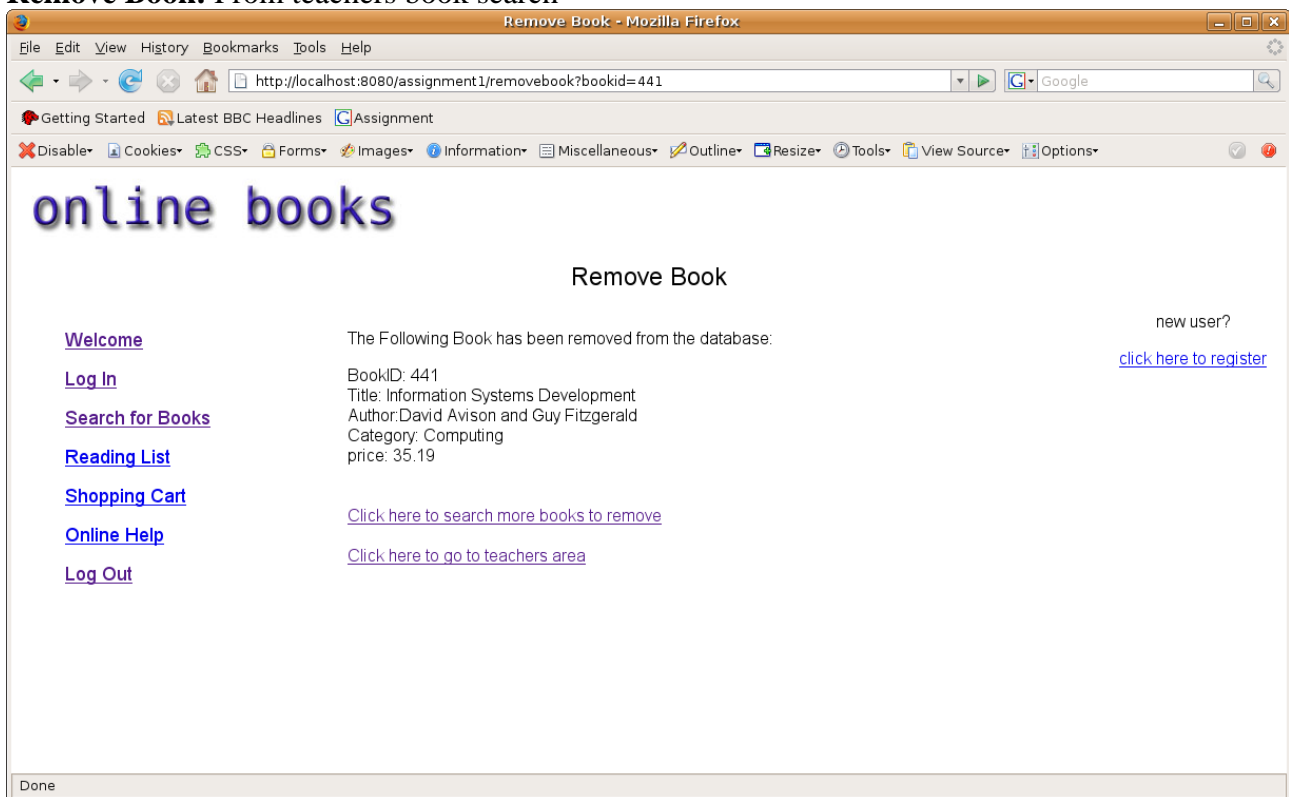

Brings up a page for the teacher select which course to add the book to it's reading list

## Add To Reading List: Confirmation

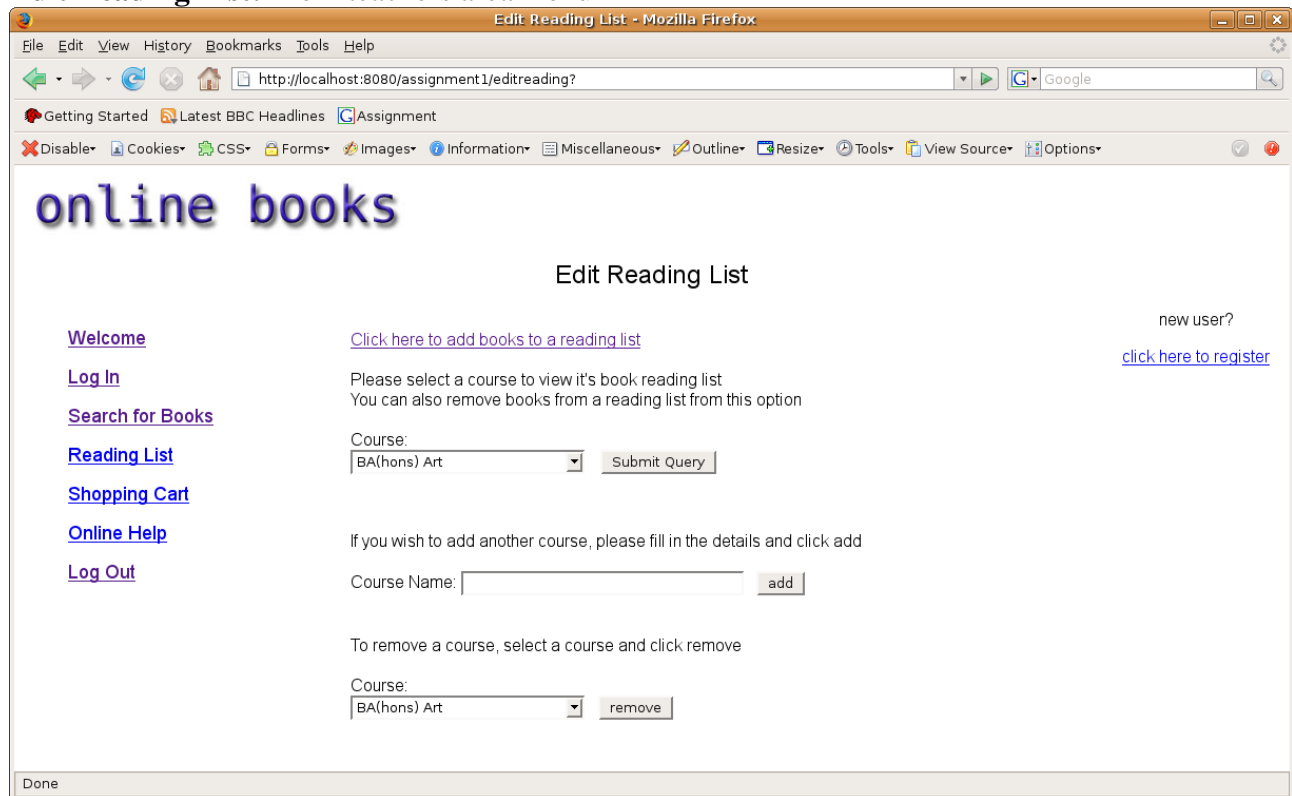

confirms the book has been added to the selected course reading list

## Remove Book: From teachers book search

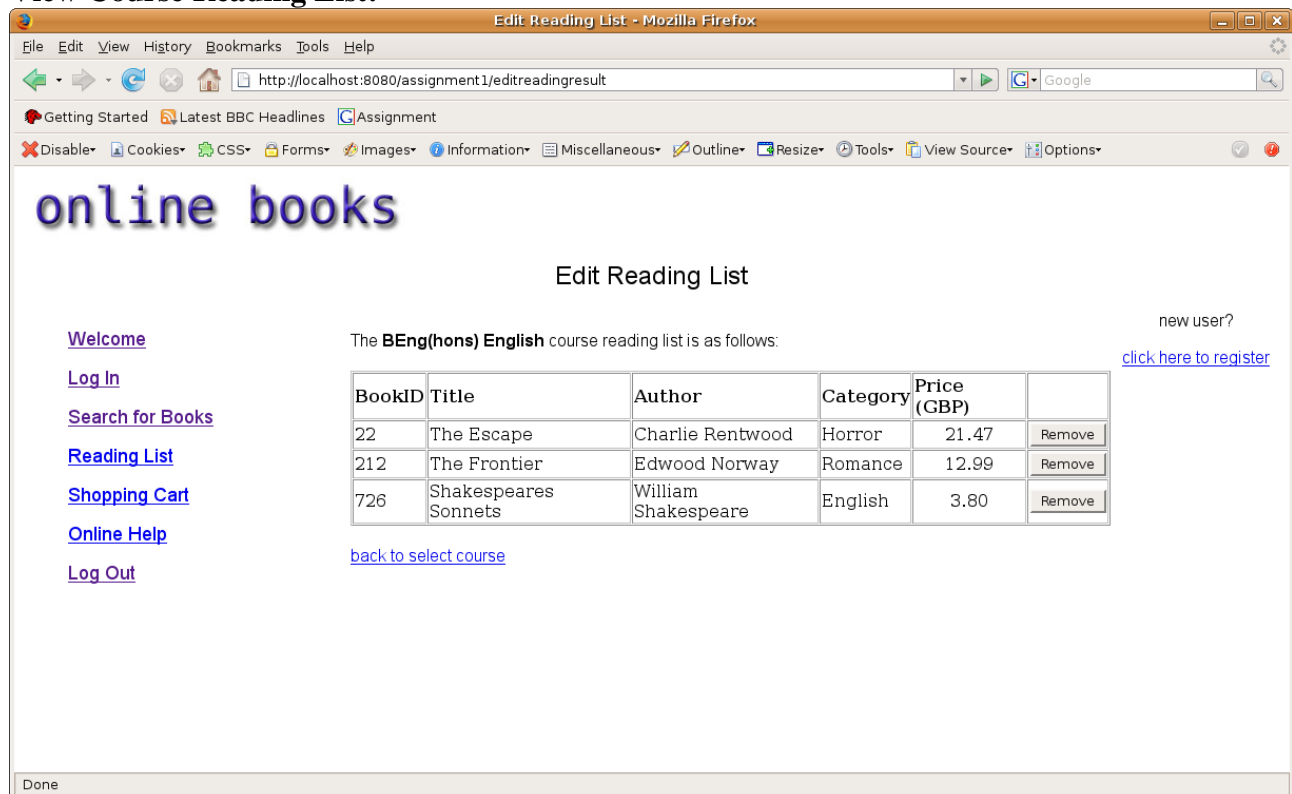

confirms the book has been removed from the database

## Edit Reading List: From teachers area menu

Brings up a page that includes a link for a teacher to add a specific book to a reading list, and also allows the teacher to select which course to view it's reading list and remove a specific book from a reading list (or course). Also courses can be added or removed from this area

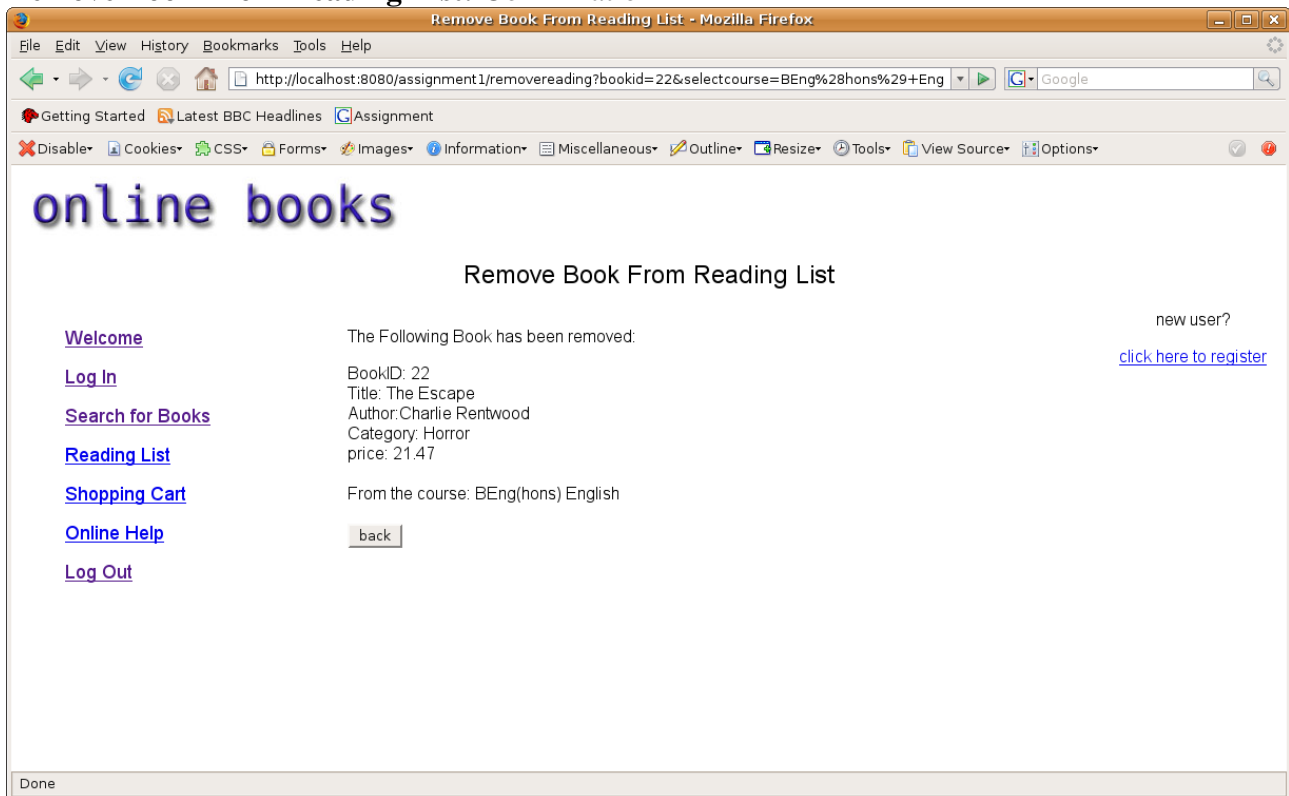

## View Course Reading List:

Confirms which course reading list the book belong to while showing the results and allows the teacher to be able to remove a specific book from the course reading list

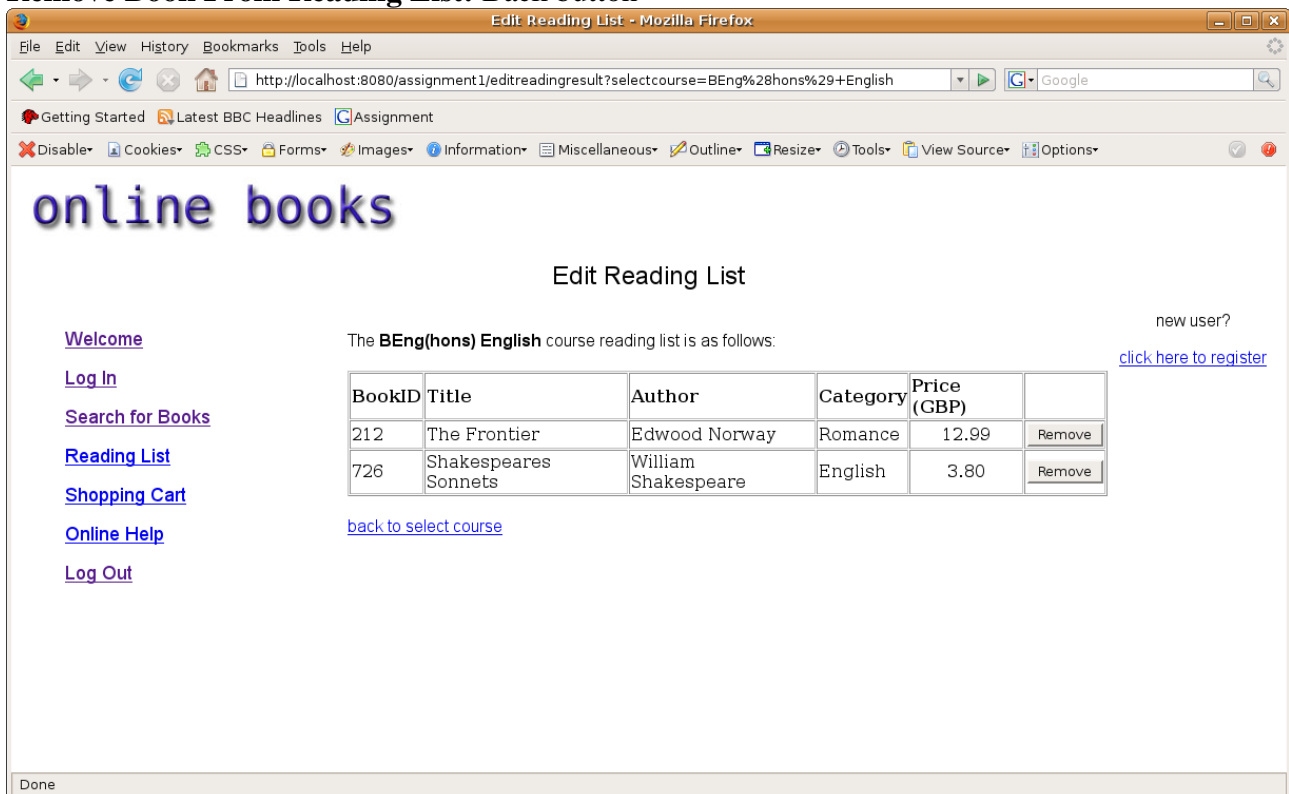

## Remove Book From Reading List: Confirmation

Confirms which book has been removed and from which reading list. Also allows the teacher to go back to the previous selected reading list in case the teacher want to remove more than one book from the selected reading list

## Remove Book From Reading List: Back button

Displays reading list minus the removed book as expected

## Add / Remove Course:

The screenshot shows a web browser window titled "Edit Reading List - Mozilla Firefox". The address bar displays "http://localhost:8080/assignment1/editreading". The page features a navigation menu on the left with links: [Welcome](#), [Log In](#), [Search for Books](#), [Reading List](#), [Shopping Cart](#), [Online Help](#), and [Log Out](#). The main content area is titled "Edit Reading List" and includes a "new user?" link with the text "click here to register". Below this, a message states: "Please select a course to view it's book reading list. You can also remove books from a reading list from this option". A form labeled "Course:" contains a dropdown menu with "BA(hons) Art" selected and a "Submit Query" button. Further down, a message says: "If you wish to add another course, please fill in the details and click add". A form labeled "Course Name:" contains a text input with "Bsc(hons) Geography" and an "add" button. Below that, a message states: "To remove a course, select a course and click remove". A form labeled "Course:" contains a dropdown menu with "BA(hons) Art" selected and a "remove" button. The status bar at the bottom shows "Done".

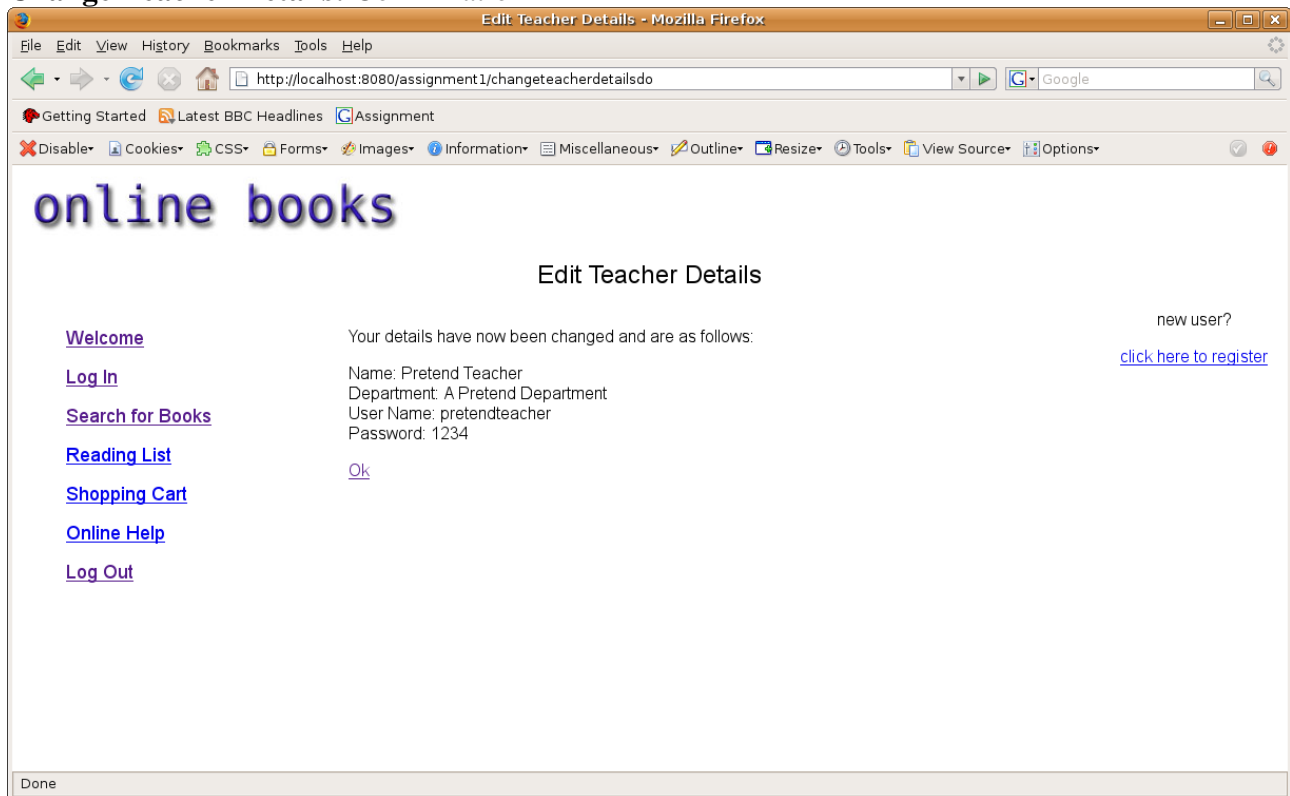

Upon clicking 'add' or 'remove' there is no confirmation page, you can simple see it in the 'course' drop down menu

## Change Teacher Details:

The screenshot shows a web browser window titled "Edit Teacher Details - Mozilla Firefox". The address bar displays "http://localhost:8080/assignment1/changeteacherdetails?". The page features a navigation menu on the left with links: [Welcome](#), [Log In](#), [Search for Books](#), [Reading List](#), [Shopping Cart](#), [Online Help](#), and [Log Out](#). The main content area is titled "Edit Teacher Details" and includes a "new user?" link with the text "click here to register". Below this, a message states: "Edit the fields and click save". A form contains three fields: "Name:" with "Pretend Teacher", "Department:" with "Pretend Department", and "Password:" with "\*\*\*\*\*". A "save" button is located to the right of the password field. Below the form, a "Back" link is provided. The status bar at the bottom shows "Done".

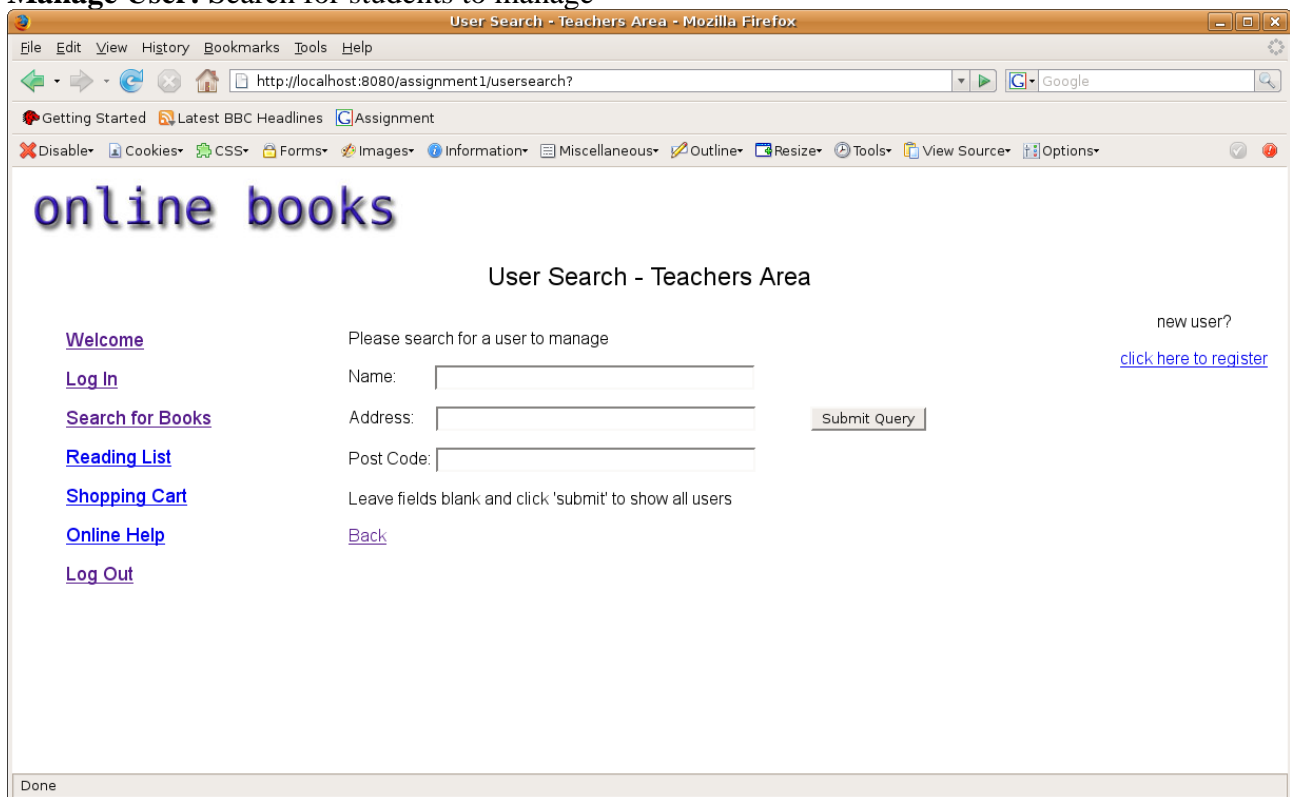

Brings up a page with editable text fields so the teacher can update their details

## Change Teacher Details: Confirmation

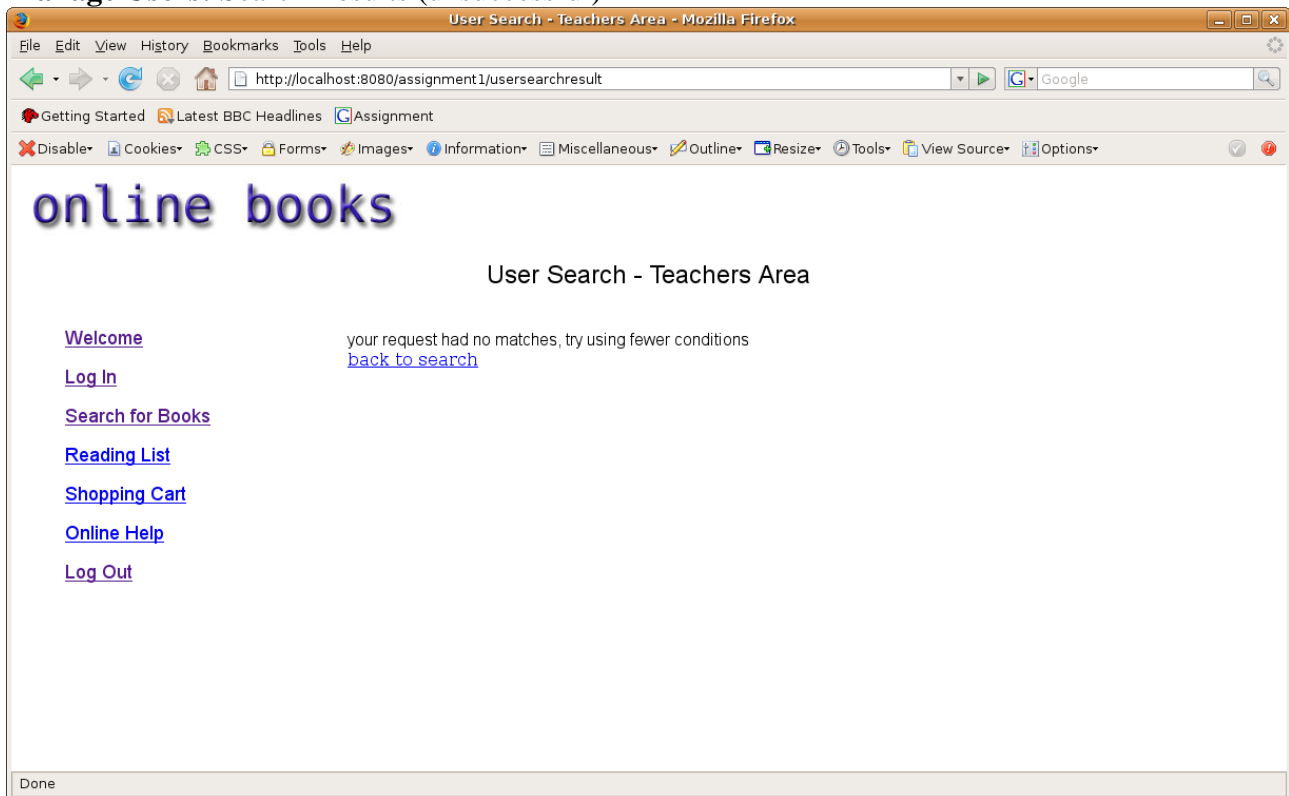

Confirmation of the teachers details being changed and database updated

## Manage User: Search for students to manage

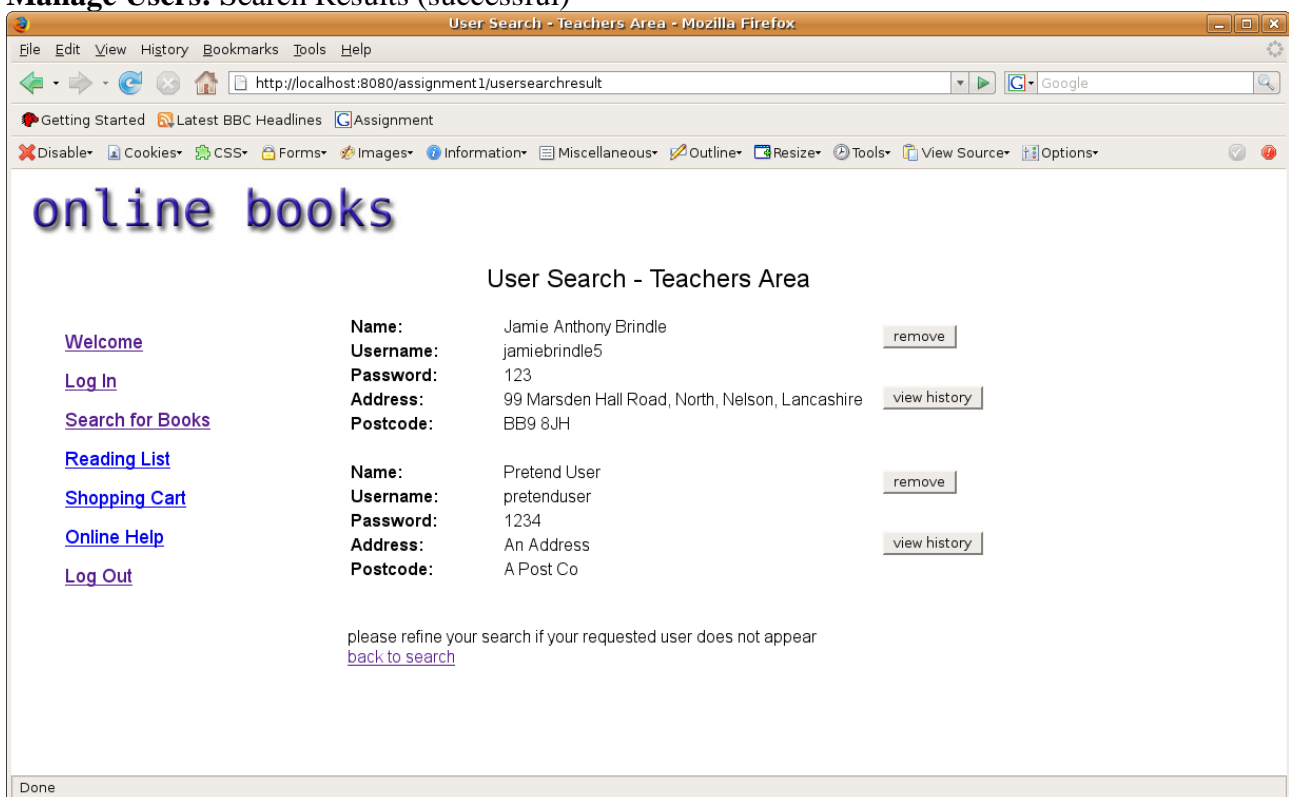

Similar to the book search method. Users can be found by entering information on one or more fields, or by leaving the fields blank can search for all users

## Manage Users: Search Results (unsuccessful)

Error message appears asking the teacher to try again

## Manage Users: Search Results (successful)

Results returned all users, and shows all the users details. The teacher can remove the user from here if they wish, or view their order history

## View Order History: Of users from teachers area
