Title: Website Development: Online Bookshop Assignment 1 Demonstration and Testing
Reading List Search, Online Help, Login Out

Reading List: Search books under a specific reading list

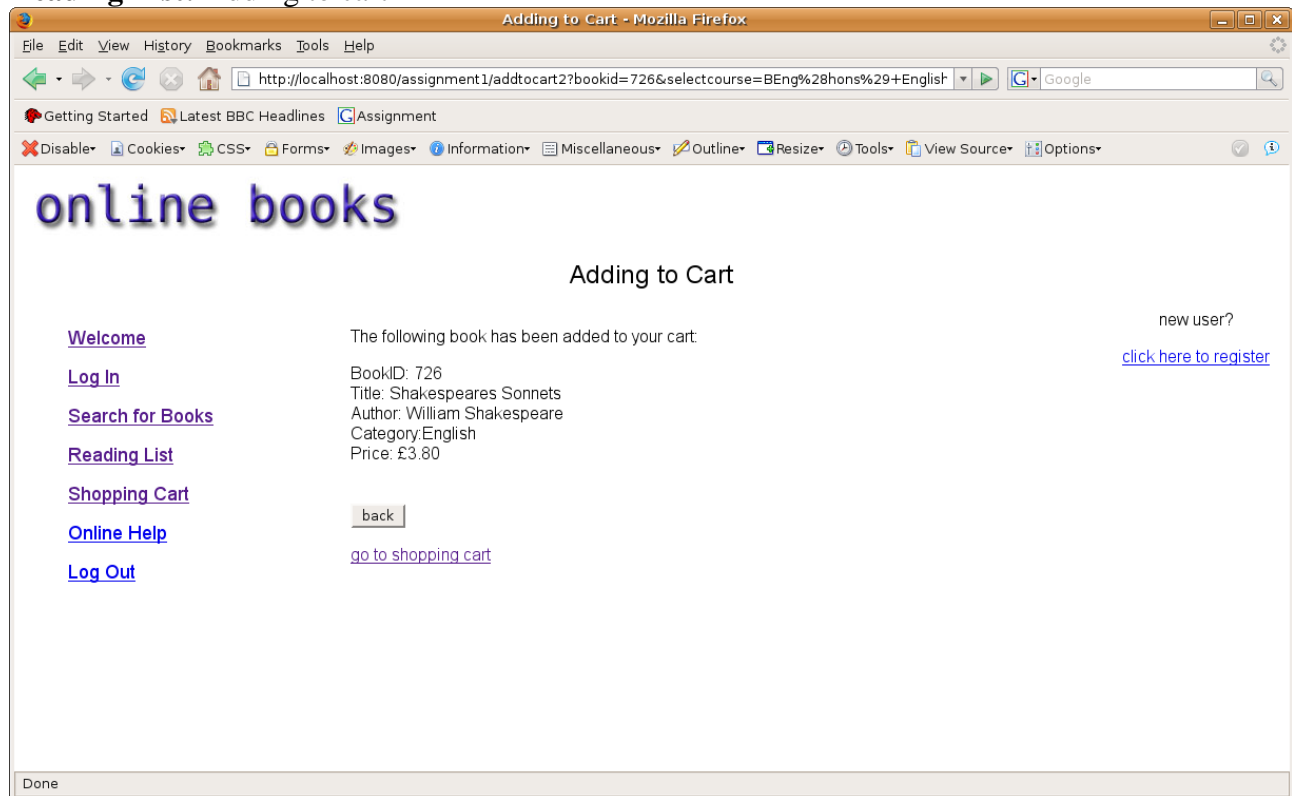

Search for a book reading list by selecting the course from a drop down menu

Reading List: Results: *English*

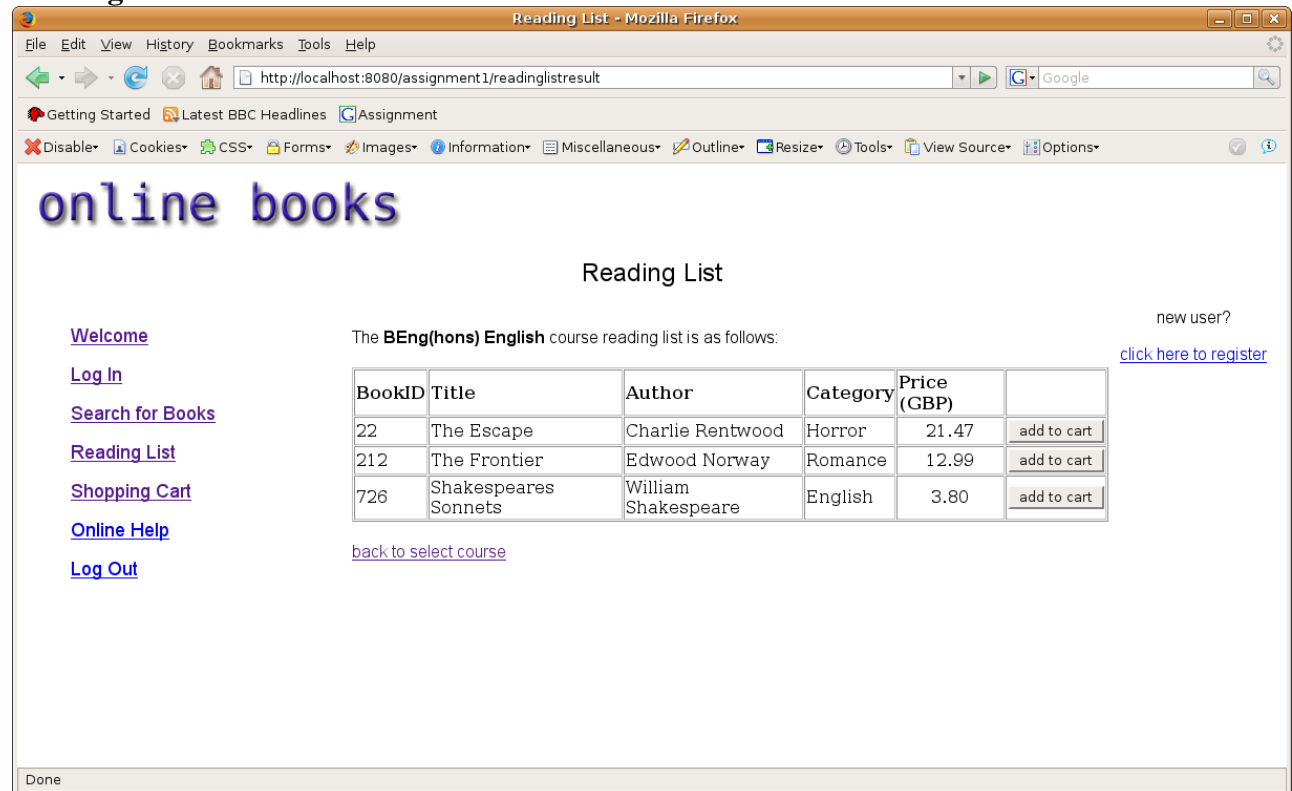

Books for that reading list appear, confirming the selected course and giving the option to add the book to a shopping cart

Reading List: Adding to cart

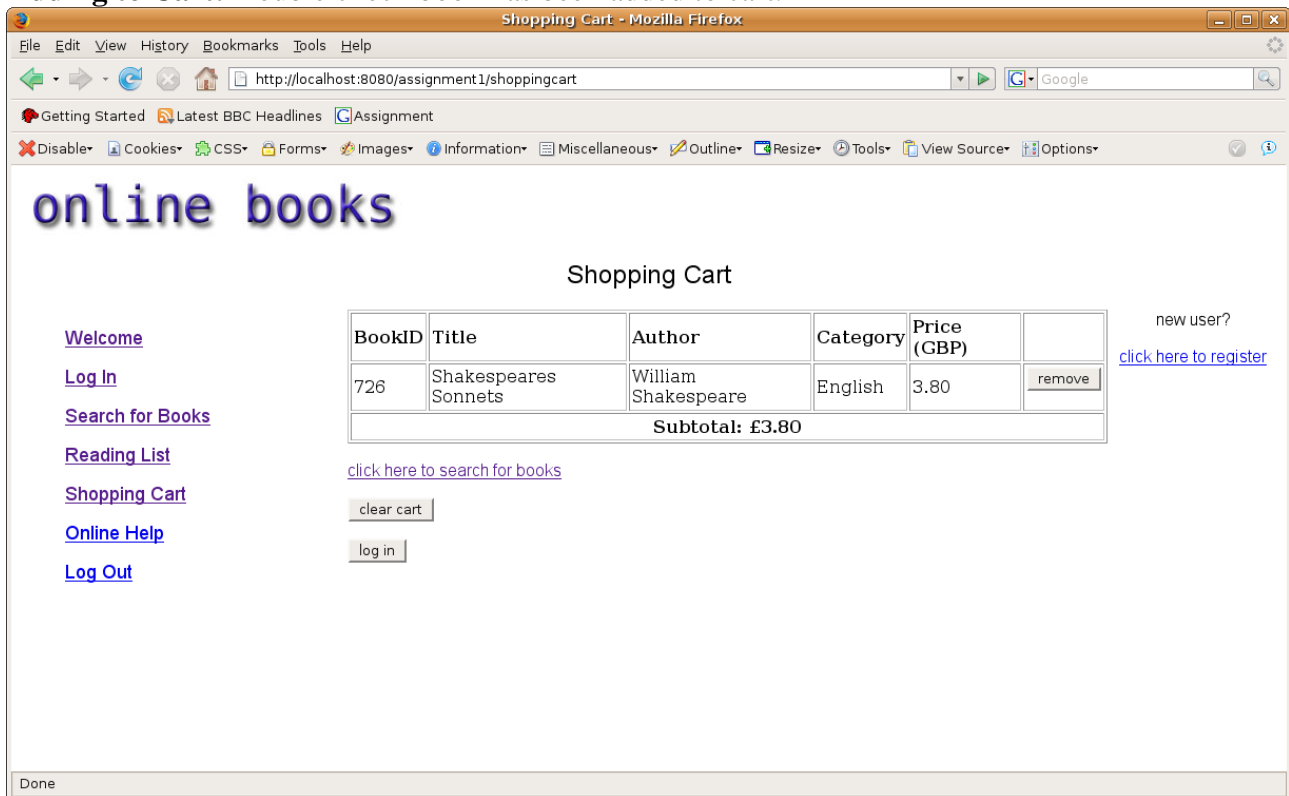

Confirms that the book has been added to the cart, also gives the option to go back to the selected reading list in case the user wishes to order more books from the same reading list

Reading List: 'Back' button after cart addition confirmation

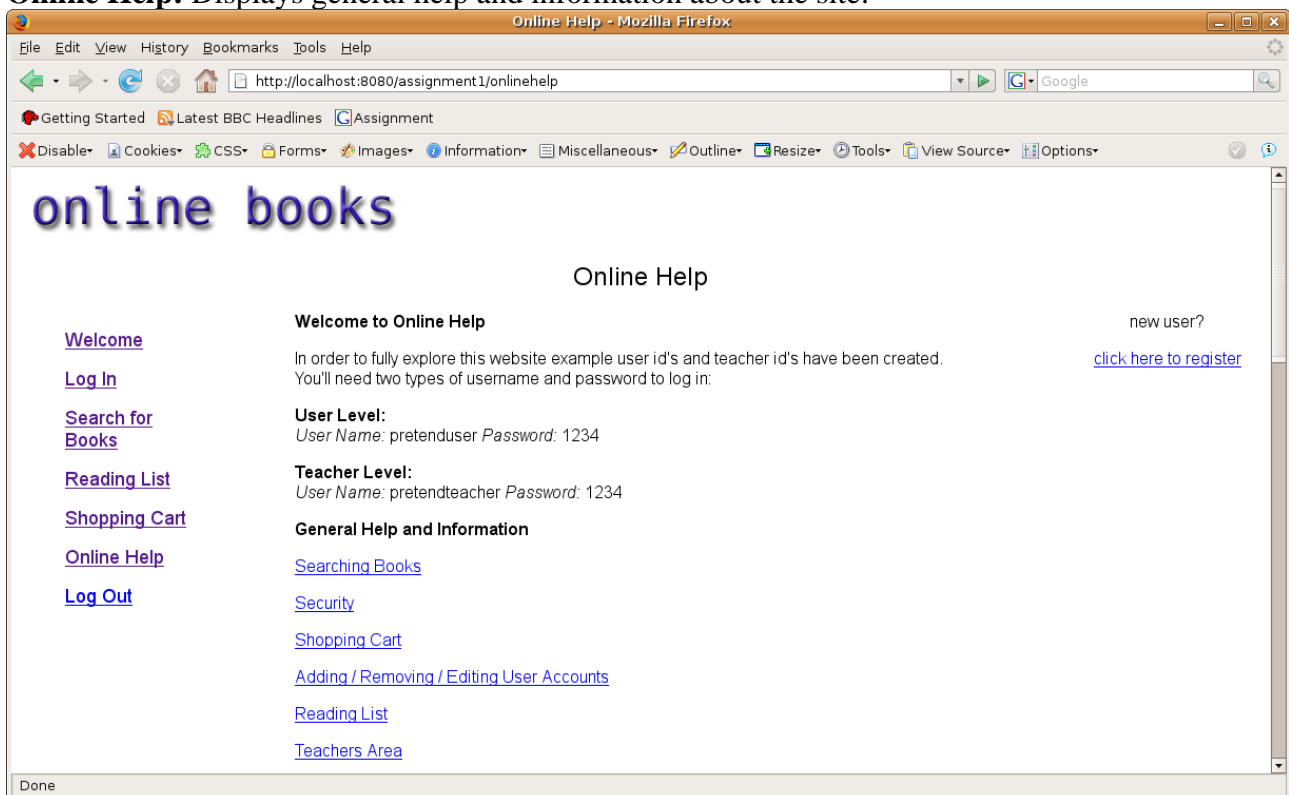

Previous reading list brought back up successfully

Adding to Cart: Double check book has been added to cart:

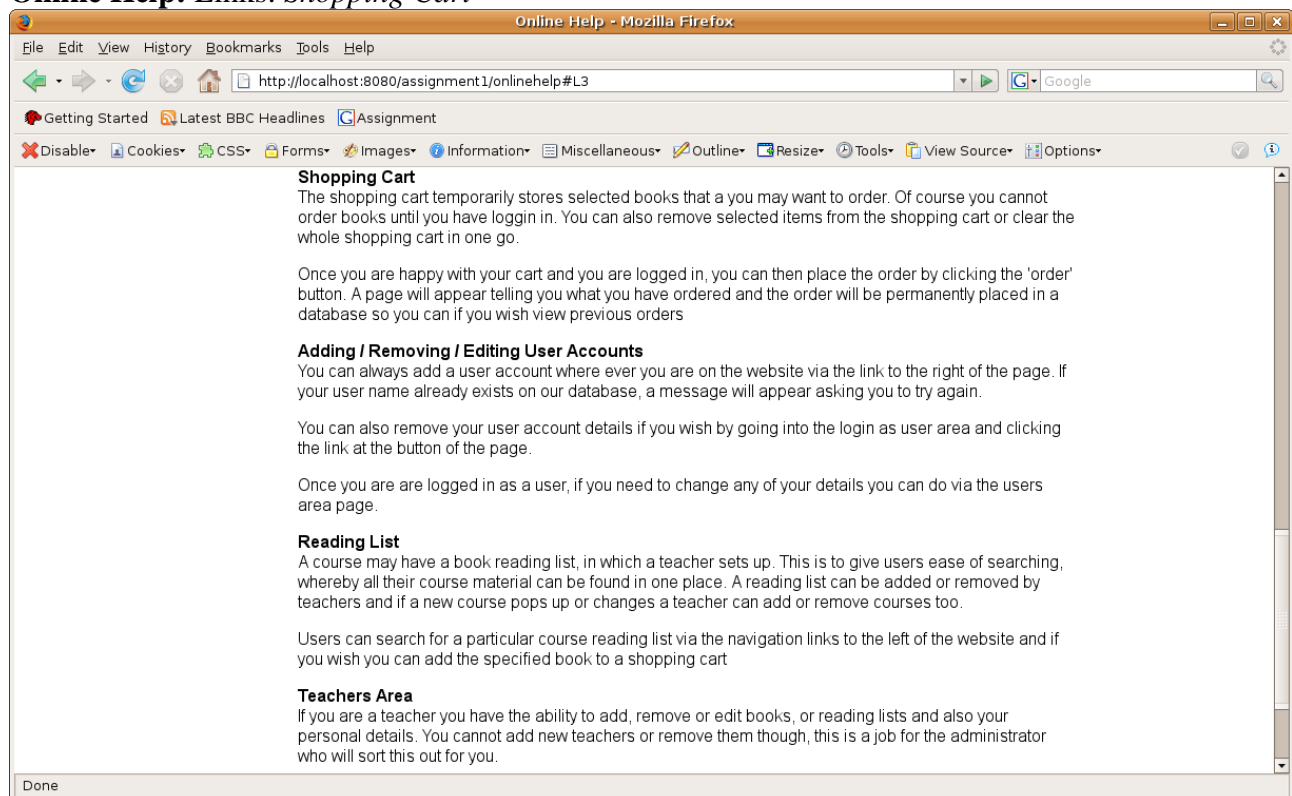

Book successfully been added to cart

Online Help: Displays general help and information about the site:

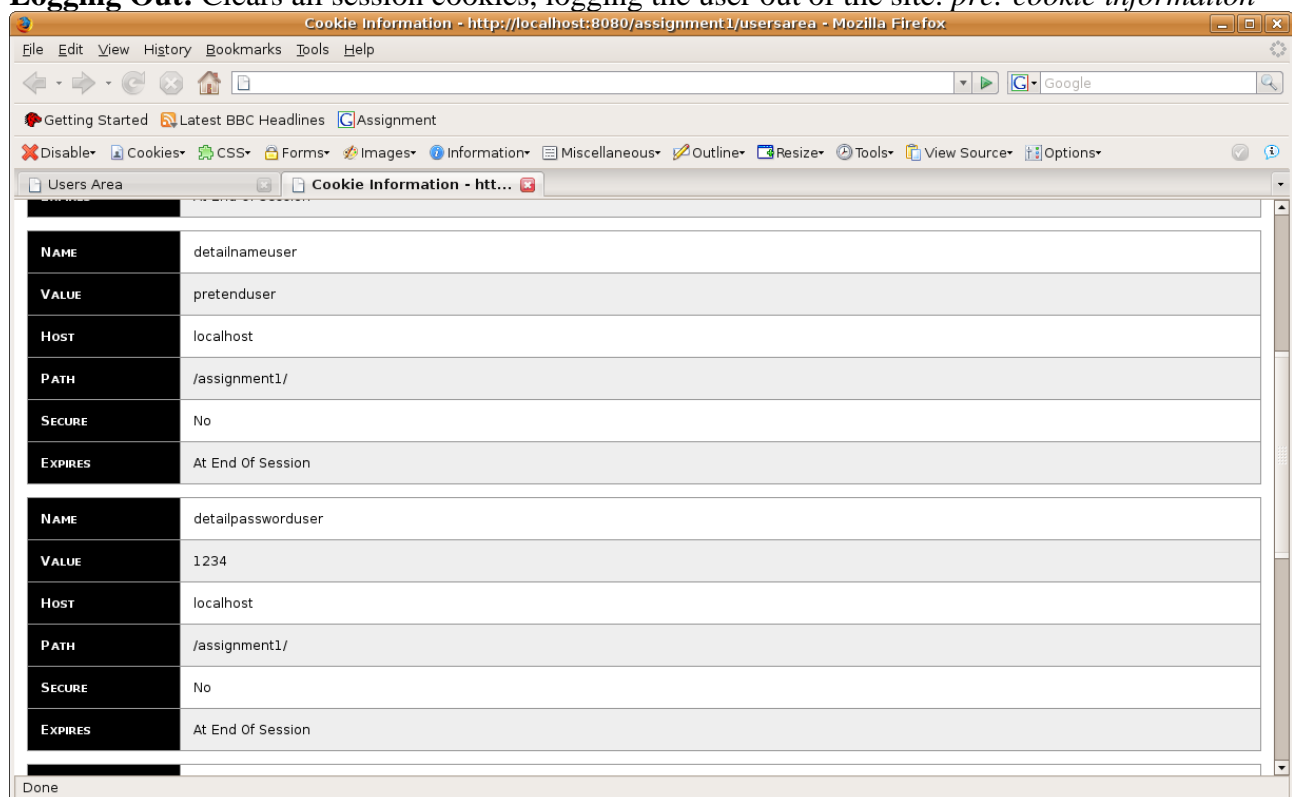

Shows help with links to the same page for ease of searching for requested information

Online Help: Links: *Shopping Cart*

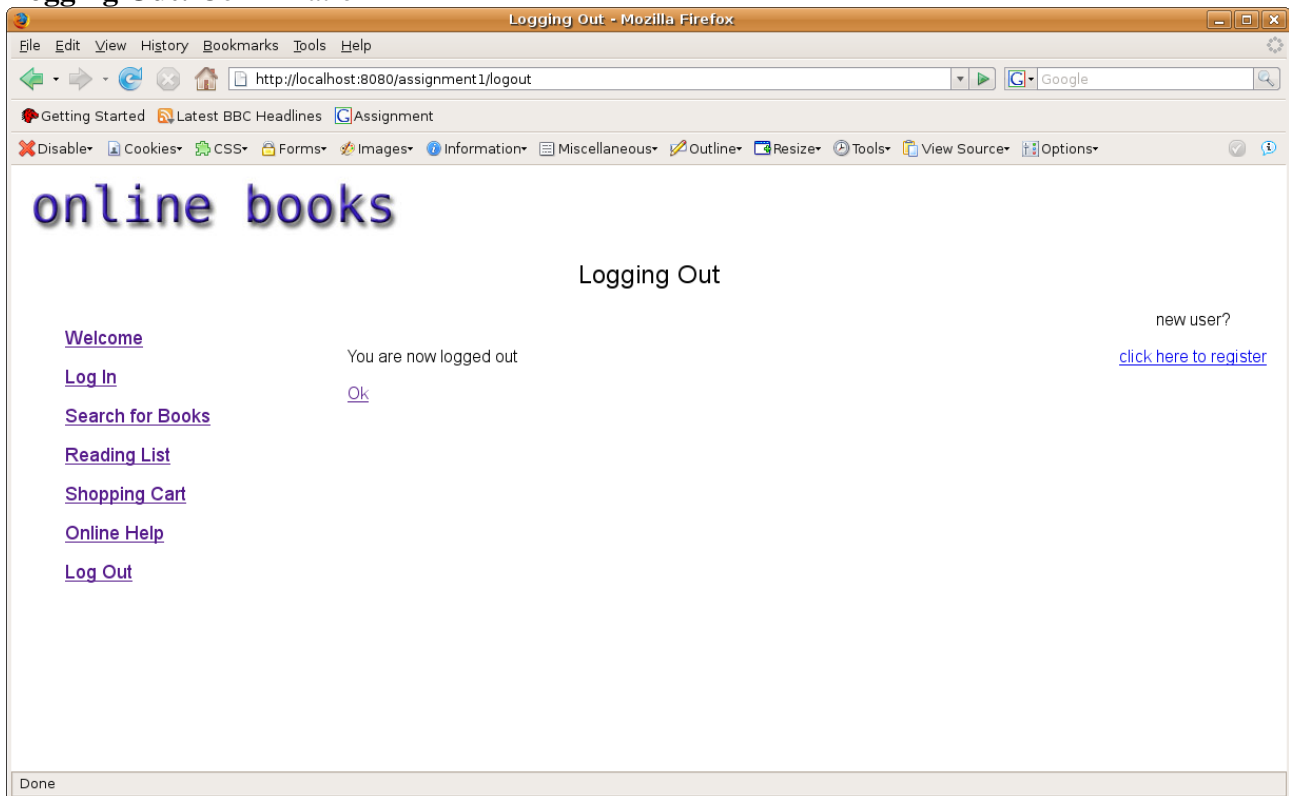

All links work successfully, however not all screen shots are shown, only an example

Logging Out: Clears all session cookies, logging the user out of the site: *pre: cookie information*
